Event Title:	Events related to an earthquake		
Event Date:	2007-07-18	Date Sent:	2007-07-19 18:44:00 UTC
Facility/Place:	Kashiwazaki-Kariwa	Facility Type:	Power Reactor
Country:	Japan	Reactor Type:	Boiling Water Reactors
Event Sender:	Shin Morita	INES Rating:	[Not Available]

Event Abstract:

[Identification of solid waste drums fall-down]

On July 19th, NISA was informed that TEPCO found hundreds of drums containing solid radioactive waste fell down at a waste storage building in Kashiwazaki-Kariwa Nuclear Power Station. Tens of them have their lids opened. TEPCO is identifying the situation.

Airborne radioactive materials were not detected in the storage building.
