SUBJECT: SUMMARY OF PUBLIC MEETINGS CONDUCTED FOR
THE DRAFT ENVIRONMENTAL IMPACT STATEMENT
FOR SOUTH TEXAS PROJECT UNITS 3 AND 4, COMBINED
LICENSE APPLICATION

On Thursday, May 6, 2010, members of the U.S. Nuclear Regulatory Commission (NRC) staff, along with the U.S. Army Corps of Engineers (USACE), Galveston District held two public meetings at the Bay City Civic Center, in Bay City, Texas regarding the staff's environmental review of the combined license application submitted by South Texas Project Nuclear Operating Company (STPNOC). The purpose of the meeting was to present the preliminary findings of NUREG-1937, "Draft Environmental Impact Statement (DEIS) for the Combined Licenses (COLs) for South Texas Project Electric Generating Station (STP), Units 3 and 4" and provide the public with an opportunity to comment on the DEIS which was issued in March 2010.

A formal presentation was made by the NRC at the start of each meeting. The presentation provided a brief summary of the environmental review including the NRC staff's preliminary recommendation to the Commission related to the environmental aspects of the proposed action that the COLs be issued.

After the formal presentations were given by the staff, members of the public were invited to provide comments. Approximately 175 people attended both meetings. Attendees included members of the public and media, representatives of the NRC and its contractor, Pacific Northwest National Laboratories, representatives from public interest groups such as Public Citizen and SEED Coalition, the nuclear industry, STPNOC, and State and local government officials. Most comments were expressing support for the COL application. There were a few comments related to the need for power analysis, alternative energy sources, and radiological and environmental monitoring.
