

Fuel Cycle Facilities

- Areas of interest to Fuel Cycle Facilities can be addressed through Guidance by:
 - Further Describing the Intent of the Regulation
 - Clarifying the Evaluation and Reporting Timeline
 - Providing Examples of Reportability Evaluations (Similar to NUREG 1022)
 - Providing a Clear Definition and Establishing Practical Boundaries for the Evaluation of “Substantial Safety Hazard” as the Term Relates to FCFs
 - Eliminating Redundant Reporting
 - Describing the Applicability of Definitions to FCFs
