

December 10, 2012

MEMORANDUM TO: James Beardsley, Chief
Construction Inspection Programs Branch
Division of Construction Inspection
and Operational Programs
Office of New Reactors

FROM: Thomas Fredette, Reactor Operations Engineer **/RA/**
Construction Inspection Programs Branch
Division of Construction Inspection
and Operational Programs
Office of New Reactors

SUBJECT: SUMMARY OF NOVEMBER 14, 2012 CATEGORY 2 MEETING WITH
SOUTHERN NUCLEAR, SOUTH CAROLINA ELECTRIC & GAS,
WESTINGHOUSE AND THE GENERAL PUBLIC TO DISCUSS
DIGITAL INSTRUMENTATION AND CONTROLS INSPECTIONS,
TESTS, ANALYSES, AND ACCEPTANCE CRITERIA INSPECTION
ISSUES

On November 14, 2012, a Category 2 public meeting was conducted at the Nuclear Regulatory Commission (NRC) Office in Rockville, MD to discuss extent, progress and status of AP1000 licensee corrective actions in response to the initial Digital Instrumentation and Control (DI&C) Inspections, Tests, Analyses, and Acceptance Criteria (ITAAC) inspection conducted in March and April, 2012, at Westinghouse and documented in NRC Inspection Report 52-025, 026/2012-009. The meeting included NRC staff from the Office of New Reactors (NRO), the Region II Division of Construction Inspection (DCI), Westinghouse (WEC), the AP1000 licensees (Southern Company (SNC) and South Carolina Electric and Gas (SCE&G)) and the general public.

The licensees and Westinghouse provided an overview of their collective corrective actions, schedule for implementation, and organizational changes that have been implemented since the initial ITAAC inspection. Discussions included licensee readiness for follow up inspections, as well as planning, scheduling, and alignment needed between the NRC staff and licensees to support subsequent AP1000 DI&C ITAAC inspections in 2013.

One member of the public was in attendance, and no Public Meeting Feedback forms were received. Please direct any inquiries to me at 301-415-8538 or thomas.fredette@nrc.gov.

CONTACT: Thomas R. Fredette, NRO/DCIP
