REMARKS: IMC 2505P, "Periodic Assessment of Construction Inspection Program Results, Revision 1 – Pilot, has been revised to refine the CAP assessment requirements."

IP 35007, "Quality Assurance Program Implementation During Construction and Pre-Construction Activities," has been revised to incorporate lessons learned in Appendix 16 from ConE IFR 2012-13 concerning the corrective action program (CAP) assessments. This revision removes the requirement that the inspection team perform an overall CAP assessment. This assessment requirement is being moved to IMC 2505P. Also, the inspection instructions are being revised to be more user-friendly.

DISTRIBUTION: Standard
