Lewisville, TX 75067

SUBJECT: RESPONSE TO YOUR SUBMISSION OF MARCH 21, 2013 REGARDING  
SOURCE MATERIAL LICENSE SUA-1580 (TAC NO. J00654)

Dear Mr. Pelizza:

By letter to the U.S. Nuclear Regulatory Commission (NRC) dated August 22, 2002, Hydro Resources, Inc. (HRI) requested NRC Source Material License SUA-1580 be renewed for a second term for its Crownpoint Uranium Project in McKinley County, New Mexico.

On November 22, 2011, HRI submitted a letter to the NRC in which HRI stated its intent to supplement its license renewal application and provided a tentative timeframe for submission of the supplement. By letter dated March 21, 2013, HRI submitted its revised Crownpoint Uranium Project Environmental Report (ER) and Consolidated Operations Plan (COP), Revision 3.0, to the NRC for review. The ER and COP are publicly available and can be found in NRC's Agencywide Documents Access and Management System (ADAMS), Accession No. ML130980185. By this letter, NRC is acknowledging receipt of the revised application for renewal.

Please note that the complete technical review, including both a health and safety review and an environmental review, may identify issues that require additional information. The NRC staff expects any requests for additional information related to its detailed safety and environmental technical review to be transmitted to HRI by January 27, 2014.

M. Pelizza
