REMARKS: IMC 2501, "Construction Inspection Program: Early Site Permit (ESP)," has been revised to delete pre-application audits, add conforming changes, and additional references clarifying the inclusion of geotechnical and site characterization activities.

IMC 2517, "Watts Bar 2 Inspection Program," has been revised to incorporate the resolution from feedback from 2517-1874 (plain language requirements for inspection reports).

IP 71124.06, "Radioactive Gaseous and Liquid Effluent Treatment," has been revised to direct the inspection staff to document observations of incomplete or discontinued implementation of the NEI/industry groundwater protection initiative (GPI). The revision also instructs inspection staff that if the licensee is not implementing the GPI, to review the adequacy of the licensee's implementation of the Decommissioning Planning Rule under 10 CFR 20.1406(c) and 10 CFR 20.1501, including Part 52 licensee requirements to implement the GPI and NEI-08-08A.
