Draft Guidance Conducting the Section 106 Process for Uranium Recovery Licensing Actions

Diana Diaz Toro, Project Manager
Joan Olmstead, Acting Deputy
Assistant General Counsel
U.S. Nuclear Regulatory Commission

June 19, 2014

Background

- NRC must complete the Section 106 process prior to making its licensing decision
- NRC is legally responsible for the NHPA findings
- Increase in the Section 106 activities for uranium recovery projects over the past several years
- Complexity of the Section 106 reviews has grown significantly

Purpose and Scope

- NRC's continuous improvement efforts
- Assist NRC staff in conducting the Section 106 process
- Useful for participants in the Section 106 process
- Incorporates lessons learned
- Provides guidance and does not impose regulatory requirements

The Section 106 Process

- Step 1 Initiation of the Section 106 Process (36 CFR 800.3)
- Step 2 Identification of Historic Properties (36 CFR 800.4)
- Step 3 Assessment of Adverse Effects (36 CFR 800.5)
- Step 4 Resolution of Adverse Effects (36 CFR 800.6)

Initiation of the Section 106 Process

- Early planning and coordination
- Begin the Section 106 process as soon as the NRC receives a license application
- Identification of consulting parties
- Timely invitations to consult
 - SHPO/THPO
 - Tribes
 - Other federal, state, and local agencies
 - Historic preservation organizations

Initiation of the Section 106 Process (cont'd) Linited States Nuclear Regulatory Commission Protecting People and the Environment Cont'd)

- Coordination of Section 106 process with the NEPA review process, whenever possible
 - Plan and use the NEPA process and documents
 - Goal: Complete Step 2 within 14 months after completion of Step 1 or prior to the issuance of the draft NEPA document
 - Goal: Complete Step 4 within 6 months after completion of Step 3 or prior to the issuance of the final NEPA document
- Coordination with reviews required by other federal agencies, whenever possible

Identification of Historic Properties

- Area(s) of Potential Effects (APE)
 - Define the APE(s) early in the process
 - Factors to consider in defining the APE
 - Scope of the proposed activities to be licensed by NRC
 - Proposed facility's footprint and license boundary
 - Areas and extent of ground disturbance
 - Topography of the surrounding area
 - Introduction of visual, auditory, and other sensory elements
- Reasonable and good faith effort in carrying out the identification efforts

Identification of Historic Properties (cont'd)

- Surveys
 - Type of survey
 - State standards
 - Open-site approach
- Eligibility
 - Apply the National Register criteria
 - Consider consulting parties' input prior to making determinations
 - SHPO/THPO concurrence
 - No historic properties affected finding

Assessment of Adverse Effects

- Apply adverse effect criteria
- Consider consulting parties' input prior to making determinations
- Consider visual, auditory, or other sensory elements
- SHPO/THPO concurrence
- No adverse effects finding

Resolution of Adverse Effects

- Consult with parties on measures to avoid, minimize, or mitigate adverse effects
- Notify ACHP of adverse effect finding
- Make information available to the public
- Consider consulting parties' input
- Develop and execute MOA or PA to resolve adverse effects

Confidentiality

- Concerns about protecting location, religious or cultural information
 - Discuss with consulting parties before receiving information
- NHPA Part 800
 - Protection to withhold information concerning the location, character, or ownership of historic property when disclosure may cause a significant invasion of privacy, risk harm to historic property; or impede the use of a traditional religious site by practitioners
 - Require the federal agency to take into account any confidentiality concerns raised by Tribes
 - Protection limited to sites eligible or identified as historic properties

Confidentiality (cont'd)

- Other Statutory Provisions
 - Archaeological Resources Protection Act (ARPA)
 - National Graves Protection and Repatriation Act (NAGPRA)
 - American Indian Religious Freedom Act (AIRFA)
 - Executive Order 13007 sacred sites
 - FOIA
- Other federal agency regulations
- SHPOs/THPOs program may have standards on protecting location of properties
- Use of confidentiality agreements or letters

How applicants can Support the Section 106 process LISING United States Nuclear Regulatory Commission Protecting People and the Environment Support the Section 106 process

- General factors to consider prior to the submittal of the license application
 - Contact and engage SHPO, THPO, Tribes, other federal, state, and local agencies
- Survey boundary
 - Location of known historic properties
 - Proposed project location is in areas known to be the aboriginal homelands of Tribes
 - Proposed construction and ground disturbing activities
 - Introduction of visual, auditory, or other sensory elements

How applicants can Support the Section 106 process Linited States Nuclear Regulatory Commission Protecting People and the Environment

- Surveys conducted prior to the submittal of the license application
 - Whenever possible, coordinate with tribal representatives at the project siting stage and when planning and conducting pre-application-submittal surveys
 - Consider measures to avoid, minimize, or mitigate potential adverse effects
- Confidential information
 - Discuss confidentiality concerns with potential consulting parties
 - Provide a redacted and non-redacted version of the historic and cultural resource report
