Operation Report for 2012" (OCAN051302) (ML13136A005)

Dear Sir or Madam:

In accordance with Arkansas Nuclear One (ANO), Unit 1 Technical Specification (TS) 5.6.2 and Unit 2 TS 6.6.2, Entergy Operations, Inc., submitted the annual radiological environmental operating report for 2013 via Reference 1.

Reference 1 noted that three air sample deviations captured within the ANO Corrective Action Program were not included in Reference 2. These missing deviations were added to the amended page of Reference 2. The amended page was included at the end of the subject report.

Subsequent to the Reference 1 submittal, it was discovered during the ANO Radiological Environmental Monitoring Program inspection that the 2012 sample deviation section incorrectly identified an air station. It was discovered that condition report CR-ANO-C-2012-01999 documented loss of power to air station #54 when it should have been air station #56. The revised amended page is enclosed.

This letter contains no new regulatory commitments.

If you have any questions or require additional information, please contact me.

Sincerely,

**ORIGINAL SIGNED BY STEPHENIE L. PYLE**

- Air Samples

Listed below are air sampler deviations that occurred during 2012 due to electrical power outages and equipment failure. These deviations did not result in the exceedence of the LLD values specified in the ODCM. As described in ODCM, B 2.5.1, Actions A.1 and A.2, deviations are permitted from the required sampling schedule due to malfunction of sampling equipment and other legitimate reasons.
