FROM: Stephanie L. Morrow, Safety Culture Program Manager /RA/  
Concerns Resolution Branch  
Office of Enforcement

SUBJECT: SUMMARY OF THE PUBLIC MEETING TO DISCUSS ASPECTS  
OF TVA'S RESPONSE TO 2009 CONFIRMATORY ORDER

On August 18, 2014, the U.S. Nuclear Regulatory Commission (NRC) staff hosted a Category 1 public meeting with staff from Tennessee Valley Authority (TVA) to discuss actions taken at Watts Bar Nuclear Plant Unit 2 in response to the Confirmatory Order dated December 22, 2009 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML093510993). Enclosure 1 contains the meeting attendance list; Enclosure 2 contains the meeting slides discussed by TVA during the meeting; Enclosure 3 is a handout provided by TVA of a timeline of safety culture activities at Watts Bar Unit 2.

The public meeting was held to provide an opportunity for TVA to describe actions that have been taken at Watts Bar Unit 2 from 2009 through 2014 to assess safety culture and safety conscious work environment (SCWE). TVA described how the assessments related to safety culture, the methods used to perform the assessments, and how the results were used. A closed session was conducted for TVA to provide information of a personal privacy nature to the NRC. No decisions were made during the meeting. NRC staff intends to perform a subsequent inspection to resolve the action items in the 2009 Confirmatory Order.
