MEMORANDUM TO: Brian E. Thomas, Director
Division of Engineering
Office of Nuclear Regulatory Research

FROM: Richard P. Correia, Director /RA/
Division of Risk Analysis
Office of Nuclear Regulatory Research

SUBJECT: RESULTS OF PERIODIC REVIEW OF REGULATORY GUIDE
(RG) 1.175

This memorandum documents the US Nuclear Regulatory Commission (NRC) periodic review of regulatory guide (RG) 1.175, "An Approach for Plant-Specific, Risk-Informed Decisionmaking: Inservice Testing." The RG, published in August, 1998, describes an acceptable approach for the development of a risk-informed application in support of a change to an inservice testing program. As discussed in Management Directive 6.6, "Regulatory Guides," the NRC staff reviews RGs approximately every 5 years to ensure that the RGs continue to provide useful guidance. Documentation of the NRC staff review is enclosed.

Based on the results of the periodic review, the staff concludes that a revision to RG 1.175, Revision 0, is not currently warranted. However, the staff plans to develop a draft guide of RG 1.175 in conjunction with the development of the draft guide of RG 1.174, as directed in SRM-SECY-11-0014. The schedule for developing a draft guide for RG 1.174 is dependent on work currently being performed by the NRC's Risk Management Regulatory Framework (RMRF) working group, as directed by the commission in SRM-SECY-13-0132. In this staff requirements memorandum (SRM), the RMRF working group was directed to develop a Commission Paper that, in part, preserves the insights contained in Enclosure 3 of SECY-13-0132, "Defense-in-Depth Observations and Detailed History," and includes a description of the interrelationships of several on-going activities, including the staff efforts to address the defense-in-depth direction in SRM-SECY-11-0014. As such, the schedule for updating RG 1.174 and RG1.175 will be developed following the Commission's issuance of an SRM in response to the RMRF Commission Paper. It is currently estimated that the Commission SRM on the RMRF Commission Paper would be issued in the second quarter of Calendar Year 2016.
