

NRC INSPECTION MANUAL

DIRS

Change Notice 15-021

DELETED:

<u>Number</u>	<u>Date</u>
1. IMC 0609 App E Part I	01/15/14
2.	

TRANSMITTED:

<u>Number</u>	<u>Date</u>
IMC 0609 App E Part I	10/26/15
IP 81700.09	10/26/15

TRAINING: No

REMARKS: IMC 0609 Appendix E Part I, "Baseline Security Significance Determination Process for Power Reactors," has been revised to incorporate revisions to unattended opening significance determination process flowchart, and the significance screen entry criteria for clarification. Completed editorial revisions in accordance with IMC 0040.

IP 81700.09, "Security Measures for Licensed Facilities," has been issued for inspection of security measures implemented at various licensed facilities that store radiological materials. Researched commitments for the last four years and found none.

DISTRIBUTION: These documents have been designated as containing "Official Use Only – Security-Related Information," and are not available to the public. For information regarding these documents, please contact Scot Sullivan at 301-287-3624.
