

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 7, 2020

Mr. John Mays
Chief Operating Officer
Powertech (USA) Inc.
P.O. Box 448
Edgemont, SD 57735

SUBJECT: LICENSE AMENDMENT NO. 3, CHANGE OF LICENSEE ADDRESS,
MATERIALS LICENSE SUA-1600, POWERTECH (USA) INC. DEWEY-
BURDOCK ISR FACILITY IN FALL RIVER AND CUSTER COUNTIES, SOUTH
DAKOTA

Dear Mr. Mays:

By e-mail dated September 30, 2020 (U.S. Nuclear Regulatory Commission's (NRC's) Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML20275A094), Powertech (USA) Inc. (Powertech) submitted a request to the NRC to amend Materials License SUA-1600. Specifically, Powertech requested that the NRC staff change the address in Section 2 of Materials License SUA-1600. By e-mail dated October 5, 2020 (ADAMS Accession No. ML20279A165), the NRC staff provided Powertech with a draft amended license for review.

License Amendment No. 3, enclosed with this letter, includes a revised Section 2 to incorporate the change in the licensee's address. By e-mail dated October 6, 2020, Powertech agreed to this change to Materials License SUA-1600 (ADAMS Accession No. ML20280A630).

Because this license amendment is being issued solely to change the licensee's business address, this licensing action meets the categorical exclusion provision in Title 10 *Code of the Federal Regulations* (10 CFR) 51.22(c)(10)(iii). Therefore, no environmental review under the National Environmental Policy Act was performed for this action.

Section 7 of the Endangered Species Act (Act) [16 U.S.C. 1531 et seq.] outlines the procedures for Federal interagency cooperation to conserve Federally listed species and designated critical habitats. Section 7(a)(2) states that each Federal agency shall, in consultation with the Secretary, insure that any action they authorize, fund, or carry out is not likely to jeopardize the continued existence of a listed species or result in the destruction or adverse modification of designated critical habitat. The NRC staff has determined that a Section 7 consultation is not required because the proposed action is administrative/procedural in nature and will not affect listed species or critical habitat. The NRC staff has also determined that the proposed action is not a type of activity that has potential to cause effects on historic properties because they are administrative/procedural actions. Therefore, no additional consultation is required under Section 106 of the National Historic Preservation Act.

As a result of this amendment, the NRC staff has completed its work on Enterprise Project Identifier (EPID) L-2020-LLA-0222 (Powertech - Address change request for Dewey-Burdock Project). Therefore, this EPID will be closed with no further charges against it.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component ADAMS. ADAMS is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions concerning the above, please contact Ron Burrows at (301) 415-6443 or via email at Ronald.Burrows@nrc.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Von Till", with a long, sweeping horizontal stroke extending to the right.

Bill Von Till, Branch Chief
Uranium Recovery and Materials
Decommissioning Branch
Division of Decommissioning, Uranium Recovery
and Waste Programs
Office of Nuclear Material Safety
and Safeguards
