2025
Regulatory
Information
Conference

The Honorable
Robert J. Feitel,
Inspector General

Welcome to the 2025
Regulatory Information Conference
and thank you for visiting us,
whether in person or virtually.

We congratulate the NRC
on 50 years
of protecting public health
and safety and safely
enabling the civilian use of
nuclear energy.

Office of the Inspector General

U.S. Nuclear Regulatory Commission

Semiannual Report

October 1, 1997 – March 31, 1998

Semiannual Report to Congress

April 1, 2024 – September 30, 2024

35
years

Promoting
economy,
efficiency,
and
effectiveness

10
years

Since 1989, the
Office of the
Inspector General,
or OIG,
has worked to ensure
safety, security,
and appropriate
corporate support
within the NRC.

We do this through our investigations into allegations of misconduct and through our audits and evaluations of agency programs.

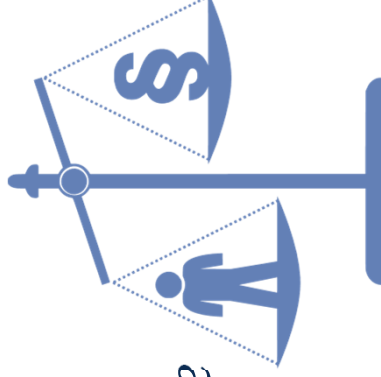

We strive to thoroughly respond to the changes and challenges our work brings as an independent voice for economy, efficiency, and effectiveness.

Our auditors, investigators, and technical experts
rely on reports from whistleblowers who want to make the agency better.

If you are thinking about whether to report something,
ask yourself if the agency is—

- *Following its own policies?*
- *Doing what it can to promote safety and security?*
- *Promoting a positive work environment?*
- *Using its resources as it should?*

Ways to Contact the OIG

Call the OIG Hotline

1-800-233-3497

TTY/TDD: 7-1-1, or

1-800-201-7165

7:00 a.m. – 4:00 p.m. (EST)

After hours, please leave a message.

As the NRC takes on the challenges of its next 50 years, the OIG too must continue to develop through innovation and the appropriate use of state-of-the-art technology for data gathering and analysis.

Although the work of federal agencies and the technologies they use have changed over the years, OIGs remain steadfast in their mission to prevent and detect fraud, waste, abuse, and mismanagement within the agencies they oversee.

All of us should rightly expect excellence, accountability, and efficiency from our government. By working together, we can get a step closer to achieving that every day.

Several OIG representatives are on hand today during the RLC, so feel free to ask questions.
