TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: Operator Experience Smart Sample (OpESS) 2012/01, "High Wind Generated Missile Hazards." The content in this OpESS has been superseded by updated guidance documents (such as RIS 15-06). Additionally, no similar trend has been seen with regards to missile hazards. This OpESS will be reviewed for items that could potentially be incorporated into IP 71111.01, "Adverse Weather Protection," and a feedback form will be submitted for any items identified.

IP 71130, "Security." This revision is to complete the periodic revision requirement. Note that the 71130.10 cybersecurity and 71130.07EW inspection procedures were added to the list of security-related inspections.

IMC 2201, "Security Inspection Program for Operating Commercial Nuclear Power Reactors." This IMC has been revised to reflect minor administrative changes.

IMC 2201, Appendix B, "Supplemental Inspection Program." This IMC has been revised to reflect minor administrative changes.

IMC 2201, Appendix D, "Facility Status Reviews for Security and Safeguards Inspection Program." This IMC was revised to reflect minor administrative changes.

In addition, the following documents have been designated as Reference Only in the Inspection Manual

OpESS 2008/01, "Negative Trend and Recurring Events Involving Emergency Diesel Generators"

OpESS 2009/02, "Negative Trend and Recurring Events Involving Feedwater Systems"
